Fancy punches by Gerdins

Fancy punches

Our broad assortment of fancy punches is made from top-quality steel. Our standard range covers heights of 9.7 mm, 12.7 mm, 19 mm and 32 mm, but these can also be specially manufactured to customer requirements.

Gerdins Cutting Technology

Our business activities are based on integrity and a highly ethical attitude to business. With the customer always uppermost in our mind, high levels of service and close communication with our customers, we focus on the importance of long-term business relations. Thanks to the fact that our own production of cutting forms and cutting knives is located in the same building as our perforation tubes are manufactured, we possess a unique know-how and an in-depth understanding of our customers' wishes and requirements. With direct sales to more than 60 countries around the world, and an ability to reach even more countries thanks to our distributors, we are proud to be able to say that we market the most widely available perforation tubes in the world.

We are certified according
to ISO 9001 and 14001.

Gerdins Cutting Technology AB is part of the Gerdins Group, active in the business areas of Components, Cutting Technology and Cable Systems. The Group has production units in Sweden and Poland and customers on every continent.
